

Fire and Security Systems Engineer – London/South East England

Due to the business growth of our service and maintenance works we currently have the following service engineering career opportunity.

Triman are a growing Fire and security company accredited to LPS1014 and NACOSS Gold and are proud to be working on numerous prestigious sites with exciting clients.

We are looking for a dynamic self-motivated person to join a fast-moving team of professional likeminded people to be able to install, commission and maintain fire and security systems to a high standard. You should be a self-starter with a desire to be the go-to person with all things fire and security! You'll have exposure to some cutting-edge technologies and be an integral part of the business moving forward.

Any knowledge of the below is highly beneficial:

- Fire Systems – Gent, Advanced, Kentec, Morley, Notifier
- Disabled Refuge- Baldwin Boxall , Honeywell
- Gas Extinguishant Panels – Kentec
- PAVA – Baldwin Boxall, Honeywell
- Security Systems – preferable, however we can also provide training on Security Systems turning you into a truly Multi-disciplined Engineer

Competitive salary and comprehensive benefits package including company van, mobile phone & laptop.

Training and development will be provided as required.

If you would like to be part of a dynamic and passionate team, please email CV to info@triman.co.uk or pop in and see us!
